**INFORMATIVE**

**SES-LIC-20080508-00570**      E080100      Anuvu Licensing Holdings LLC

On August 4, 2009, the International Bureau (IB) and the Office of Engineering and Technology (OET) granted blanket authority to Row 44, Inc. (now known as Anuvu Operations, LLC) for domestic operation of up to 1,000 technically identical transmit/receive aircraft earth stations in the Aeronautical Mobile Satellite Service. Row 44, Inc., Order and Authorization, 24 FCC Rcd 10223 (IB/OET 2009). In the Row 44, Inc. Order and Authorization, the IB and OET noted that it had "referred the application to the Executive Branch law enforcement and homeland security agencies for coordination with respect to any national security, law enforcement or public safety concerns. On July 13, 2009, the Department of Justice indicated that those agencies would have no comment on Row 44's application." Row 44, Inc. Order and Authorization, 24 FCC Rcd at 10226 n.12. On September 30, 2022, the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) notified the Commission that it has terminated the July 13, 2009 mitigation agreement with Anuvu because the Compliance Monitoring Agencies have determined that such mitigation is no longer warranted. The Committee requests that the Commission remove the mitigation agreement as a condition to the authorization. We grant the Committee's request. The Committee letter may be viewed on the FCC's website through the International Bureau Filing System (IBFS) by searching for SES-LIC-20080508-00570 and accessing the "Other Filings related to this application" from the Document Viewing Area.
